

```
1  #include <stdio.h>
2
3  int main() {
4      int n;
5      printf("Enter number of
elements: ");
6      scanf("%d", &n);
7      int src[n], dest[n];
8
9      printf("Enter elements for
source array:\n");
10     for(int i = 0; i < n; i++) {
11         scanf("%d", &src[i]);
12         dest[i] = src[i];
13     }
14
15     printf("Copied array elements:
");
16     for(int i = 0; i < n; i++) {
17         printf("%d ", dest[i]);
18     }
19     return 0;
20 }
21 |
```

main.c

Output

```
Enter number of elements: 2
Enter elements for source array:
10 20
Copied array elements: 10 20
```
